FOREWORD

At Northern Ekspress, we are committed to delivering quality, safety, and reliability in everything we do.

Our growth has been built on strong relationships, hard work, and a deep understanding of the needs of our clients and communities across Papua New Guinea.

We look forward to continuing to build with purpose, professionalism, and integrity.

— Stanley Warren
Managing Director

NORTHERN EKSPRESS LIMITED

COMPANY OVERVIEW

Northern Ekspress Limited is a fully Papua New Guinean-owned civil works, heavy equipment and plant hire company based in East Sepik Province. We deliver practical, reliable and cost-effective infrastructure solutions for government, private sector and community projects.

Our work covers road construction and maintenance, civil engineering support, earthworks, gravel supply and haulage, transport logistics, plant and equipment hire, drainage, site preparation, house construction, residential building works, and general project support.

NORTHERN EKSPRESS LIMITED

VISION & MISSION

OUR VISION

To become one of Papua New Guinea's most trusted and capable indigenous civil works, residential construction and plant hire companies — delivering infrastructure and homes that genuinely connect communities and support long-term economic growth.

OUR MISSION

We provide reliable, cost-effective civil construction, house building, heavy equipment and plant hire services across Papua New Guinea. Through skilled operators, well-maintained machinery, and a commitment to safety and quality, we deliver practical solutions for infrastructure and residential building works that meet the needs of government, private sector and community projects — on time and within budget.

WHAT WE DO

We handle road construction, rehabilitation and maintenance, drainage and culvert works, earthworks, gravel supply and haulage, site preparation, house construction, residential building works, and plant and equipment hire.

We also provide transport and logistics support, excavation, filling, compaction, pavement preparation, structural home construction, and practical civil engineering assistance on projects.

We're a growing local company, so we stay focused on doing the job properly — with reliable equipment, experienced operators, and solutions that work for government, private and community projects. Northern Ekspress Ltd supports projects that require dependable equipment operation, skilled labour, and straightforward project execution.

OUR CORE SERVICES

Northern Ekspress Ltd provides civil construction and residential building services including road works, earthworks, drainage, house construction, and heavy equipment operations. Our scope covers site preparation, construction, structural home construction, and supporting activities necessary for infrastructure and residential delivery.

We undertake works that require practical construction capability, equipment operation, and on-site coordination, with a focus on delivering reliable outcomes suited to local conditions in Papua New Guinea.

Our services are offered for small to medium-scale projects and selected larger works where capacity and resources allow.

ROAD CONSTRUCTION & REHABILITATION

Construction, upgrading, and maintenance of access roads and road networks.

BRIDGEWORKS & DRAINAGE SYSTEMS

Culverts, drainage channels, and basic bridge-related works to support road infrastructure.

BUILDING CONSTRUCTION

Construction of houses, small buildings, and related structures, with practical solutions tailored to residential and small-scale projects.

AGROFORESTRY-TIMBER PROCESSING & MILLING

Sawn timber downstream processing and milling for export requirements.

AGRICULTURE COMMODITIES EXPORT

Specialising in cocoa and copra major crops export.

EQUIPMENT & CAPABILITY

Our fleet and supporting resources include heavy tipper trucks, a backhoe loader, Toyota LandCruiser/4WD support vehicles, compactors, chainsaws, hand tools and other plant and building equipment.

HOW WE WORK

- Practical planning and realistic timelines
- Clear communication with clients and stakeholders
- Flexible approach suited to PNG conditions
- Local workforce engagement where possible
- Focus on doing the job right, not overselling capability

SAFETY & COMPLIANCE

Northern Ekspress Ltd is committed to maintaining safe work practices on all project sites. We follow practical health and safety procedures appropriate to the nature of our works, including PPE use, equipment checks, and on-site safety awareness.

We comply with applicable labour and workplace safety requirements in Papua New Guinea and apply project-specific safety measures as required by clients.

OUR VALUES

Integrity • Safety • Quality • Teamwork •
Accountability • Respect • Excellence

At Northern Ekspress Limited, we are committed to delivering reliable, efficient and sustainable construction and residential solutions. We take health and safety seriously, aim for timely delivery, keep our equipment properly maintained, and invest in skilled operators. We manage our finances carefully, respect the environment, involve local communities, and continually strive to improve.

Integrity

We do the right thing, always.

Safety

We protect our people, clients and communities.

Quality

We deliver work that meets the highest standards.

Teamwork

We work together to achieve the best results.

Accountability

We take responsibility and follow through.

Respect

We value every individual and the environment.

Excellence

We strive for continuous improvement in everything we do.

LOOKING AHEAD

Northern Ekspress is an emerging indigenous contractor focused on growing from local civil works and transport jobs into larger provincial and national infrastructure projects.

We are open to long-term partnerships and joint ventures with government agencies, District Development Authorities, provincial governments, resource companies, major contractors and donor-funded programmes.

Growing Our Capability

Building experience, investing in our people and equipment, and delivering quality on every project.

Expanding Our Reach

Moving from local projects to larger provincial and national infrastructure works.

Building Strong Partnerships

Collaborating with government, industry and communities to deliver lasting value.

Creating Sustainable Impact

Delivering infrastructure that improves lives, connects communities and supports economic growth.

EXPANSION ALWAYS ALL WAYS.

We are committed to creating local jobs, building technical skills and strengthening Papua New Guinean participation in the infrastructure sector. Our goal is to deliver quality projects today that leave assets and opportunities which can support future generations.

LEADERSHIP TEAM

Our leadership team brings together extensive industry experience, technical expertise, and a shared commitment to excellence, safety, and sustainable delivery across Papua New Guinea.

Stanley Warren
